दिना- ०६२/३/१६

Subject: "Effect by Upper Marsyangdi-2 HEP(600 MW) to Upper Marsyangdi -A HP (50 MW) during construction and operation"

Dear Sir,

उ. म. नि. (अनुमतिपत्र म.)
मिति: प्र. नि. १६६३
२०७५/०३/१६

We, Sinohydro-Sagarmatha Power Company Pvt. Ltd ("SSPC") is the Special Purpose Vehicle established under the laws of Nepal for the development of Upper Marsyangdi-A HEP (the "Project") with installed capacity of 50MW. First, we would like to express our gratitude for your support in the development of this Project. For your information, the Project has come into commercial operation since January 1st, 2017. It has generated more than 500 GWh electricity till now.

Second, We would like to bring to your kind attention to our letter No. 059/29 IV 2016/SSPC dated 9 May 2016 where we had shown our concern of impact by proposed Upper Marsyandi-2 HEP (600 MW) to our existing project which is designed in a Peaking Scheme with 3 hours peaking during the month between November to May and 6 hour peaking during the months between June to October.

Considering the fact that Upper Marsyandi-2 HEP (600 MW) being proposed as peaking scheme, which will definitely change the hydrology of the Marsyangdi River and thus hampering the operation of downstream projects, especially those designed as ROR type. We once again would like to reiterate the importance of your good office to take necessary step to ensure the smooth operation of exiting projects located at downstream of the proposed Marsyandi-2 HEP.

SINOHYDRO-SAGARMATHA POWER COMPANY (P) LTD.
UPPER MARSYANGDI "A" HYDROPOWER PROJECT

We would like to be assured from your good office that when Upper Marsyandi- 2 HEP (600 MW) is under construction and in operation, it will not affect the revenue generation of our Project.

We look forward to receiving your acknowledgment, your consideration regarding this matter will be highly appreciated.

Sincerely Yours,

(Mr. Yan Hongwei)
